

Playgroups USA will assist in everyway possible to help form a playgroup that meets your needs, but unfortunately we can't always guarantee there will be a playgroup available for you at the time of registration. If you would like to help get your playgroup established sooner, here are some suggestions:

1. Print out the Playgroups USA playgroup business cards available to you on our site or create your own to pass out to your friends and other parents/caregivers you meet at the parks, storytimes, etc. There are several parents who are looking for playgroups such as the one you just joined/started.
2. Post a Playgroups USA flier! (print the .PDF file on our site)
 - a. Display the flier at your local library or church (they usually accept fliers for services like Playgroups USA that are free).
 - b. Post on local bulletin boards where parents or caregivers hang out (your local coffee shop, children's store, etc.)
3. Consider your neighborhood or Home Owners Association newsletter as a way to reach out to the community. HOA managers can help you post information.
4. Get the word out about your new playgroup by making it available on other websites such craigslist.org.
5. We can look into advertising with local family resource organizations in your area as long as they reach parents and caregivers. Send us an e-mail at playgroupsusa@playgroupsusa.com.
6. Feel free to suggest possibilities in helping you establish a successful playgroup for you and your child/children by e-mailing us at playgroupsusa@playgroupsusa.com.

Good luck and thanks for choosing Playgroups USA for your playgroup!

Sincerely,
Playgroups USA Staff
